

PRESS RELEASE**RUETZ SYSTEM SOLUTIONS Expands Testing Business to China****Cooperation with HiRain Technologies to Support Chinese Carmakers and Suppliers in Automotive Data Communications**

Munich (Germany) May 13, 2014 – RUETZ SYSTEM SOLUTIONS announces its collaboration with HiRain Technologies as distributor and technology partner in China. With this cooperation, the experts in automotive data communication expand their business in Asia significantly by adding China to the existing markets of Japan and South Korea. "This new partnership is our response to the growing demands of carmakers and automotive suppliers in China," stated Wolfgang Malek, General Manager and Co-Founder of RUETZ SYSTEM SOLUTIONS. "Together, we will provide professional support in automotive data communications for a smooth and on-time start of production (SOP). In HiRain Technologies we have found an excellent partner to meet these requirements, since this Chinese supplier of development tools, automotive electronic products, consulting and training services has been in the automotive industry since 1998."

Joint Portfolio Reaches from MOST® Testing to Consulting and Engineering Services

RUETZ SYSTEM SOLUTIONS has transferred Chinese distribution rights to HiRain Technologies for the standardized test setup portfolio for MOST compliance testing. Included are the test setups for MOST Core Compliance Testing, MOST Extended Core Compliance Testing, MOST Optical Limited Physical Layer Testing, and the Full MOST Electrical Physical Layer Compliance Test. HiRain will also distribute TTsuite, the framework for System Integration Testing. In addition to these products, consulting and engineering services are part of the agreement. In response to the needs of the Chinese market, RUETZ SYSTEM SOLUTIONS and HiRain Technologies will develop solutions for components, devices and systems based on MOST Technology.
